1348	0.20	0.20
1434	12.80	11.80
1472	-9.00	-10.00

NOTES: The number is how many months are paid. Red and white mean you are not eligible for that month - anything less than 1. Green means you are included in that month's drawing - equal to or greater than 1. Every month is \$5, to play 12 months is \$50 (a bonus of 12 months for the cost of 10).

For anything less than \$5, it is reflected as an increment of 1.00. For example, if a player has contributed \$3 instead of \$5 for a month, that player shows a value of 0.60, which is not eligible for that month's drawing and will carry over to the next month. If that same player contributes \$2 the following month, then the player has \$5 credit and becomes eligible for that month's drawing.

SPECIAL NOTE: Contributing more than \$5 per month DOES NOT get you extra chances in a month. EACH PLAYER GETS 1 ENTRY PER ELIGIBLE MONTH. If you contribute \$10 or more per month, you are buying a month or months ahead.
